

FOCAPO/CPC 2012 Conference Program Announced

Wayne Bequette

**** Reminder: CONTRIBUTED PAPERS for FOCAPO and CPC are due JULY 31****

The FOCAPO 2012 Meeting will take place in Savannah, Georgia, January 8-11, 2012 and will be immediately followed by CPC (Chemical Process Control; January 11-13), with one joint day of programming. More details about the conferences can be found at <http://focapo.org/> and <http://cpcmeeting.org/>.

Poster sessions with contributed papers will be a major part of the FOCAPO 2012 and the CPC 2012 conferences, and will be devoted to presentation of new methods and novel industrial applications in the area of process operations and control. Authors interested in a poster presentation should submit a paper not to exceed 6 pages in the format described on the conference web sites. Extended abstracts are acceptable provided that they convey clearly the novelty and significance of the work. All papers/abstracts submitted for poster presentation will be peer reviewed. A small number of the contributed papers may be selected for oral presentation, and a large number will be selected for inclusion in a post-conference special issue of Computers & Chemical Engineering.

Program chairs for FOCAPO are Jose Pinto (Praxair) and Mike Sahinidis (CMU), while for CPC the chairs are Don Bartusiak (Exxon Mobil) and Prodromos Daotidis (U. Minnesota).

Submit online at <http://focapo.org/> and <http://cpcmeeting.org/>

***** Deadline for abstracts/papers: July 31, 2011 *****

Authors informed: August 31, 2011

Submission of abstracts/papers for inclusion in proceedings CD: October 31, 2011

Conferences: January 8-11, 2012 and January 11-13, 2012

Submission of papers selected for inclusion in Computers & Chemical Engineering: March 31, 2012

Publication of journal papers: end of 2012
