

Gavin Towler

**Corporate VP and Chief Scientist,
Sustainable Technologies
Chief Sustainability Officer
Honeywell**

Gavin Towler is the Corporate Vice President and Chief Scientist, Sustainable Technologies for Honeywell, with broad technical accountability across Honeywell for driving thought leadership in Sustainable Technologies.

Gavin has 32 years of experience of process and product design in the chemicals and fuels industries and has 77 US patents. Prior to his current role he served as Vice President and Chief Technology Officer of Honeywell UOP and of Honeywell Performance Materials and Technologies. He is co-author of “Chemical Engineering Design”, a textbook on process design, and is an Adjunct Professor at Northwestern University and the National University of Singapore, where he helps teach the senior design classes.

Gavin has a B.A. and M.Eng. in chemical engineering from Cambridge University and a Ph.D. from U.C. Berkeley. He is a Chartered Engineer and Fellow of the Institute of Chemical Engineers, a Fellow of the AIChE and a member of the United States National Academy of Engineering.
