

CACHE Website on Process and Product Design Gets Major Update

Professor Warren Seider recently conducted a survey of his colleagues who work in the area of process and product design. The content that he assembled from the survey falls under the following four categories:

- (1) Course Materials
- (2) Optimization Websites
- (3) Discussion Group
- (4) Software

See www.che.utexas.edu/cache/trc/t_design.html for the current list of URL's on curriculum content for this area. Contact Warren Seider seider@seas.upenn.edu if you would like to post your materials on this web site.
