

FOMMS 2012 Foundations for Discovery and Data

The Foundations of Molecular Modeling and Simulation (FOMMS) 2012 Conference will be held July 22-26, 2012 at The Resort at The Mountain, near Portland, Oregon. The conference will include lectures and discussions on a range of topics in molecular modeling and simulation including: Effective Simulation of Complex Molecules; Multi-resolution Simulations: QM/MM, MM/CG, and beyond; Integration of Molecular Modeling and Simulation with Product and Process Design; Energy and Environmental Applications; Pharmaceutical and Life Science Applications; and Cyberinfrastructure and Future Trends. There will also be several workshops, organized outings, and the FOMMS Medal banquet.
