

CACHE-Sponsored Conferences

The CACHE newsletter traditionally includes information about CACHE-sponsored conferences to be held in the near future. However, all of these conferences are on multi-year cycle, usually held every 3-5 years, and no CACHE-sponsored meetings will be held in 2020. Furthermore, due to the impact of COVID-19, CACHE has decided to not sponsor major conferences in 2021 and instead delay some of the conferences that were planned. The current schedule for CACHE sponsored conferences in the next few years is as follows:

- FOMMS is now scheduled for Summer 2022 at the Lake Lawn resort in Delavan, Wisconsin. The exact dates have not been finalized, but the intent is to look at mid-July.
- FOSBE is also scheduled for 2022 in the Boston area. Exact dates and location are still under discussion.
- FOCAPO/CPC has been rescheduled to January 2023. The current plan is for the conference to be held in San Antonio, but this is still under negotiation.
- The current plan is to hold the next FOPAM in Summer 2023.
- The next FOAPD is currently scheduled for Summer 2024.

Please note that this reflects the current planning and that changes are possible, due to the current situation, but also because conference organization hinges on many other factors which cannot always be predicted years in advance.
