

Wayne Bequette
Rensselaer Polytechnic Institute

Wayne Bequette is a Professor of Chemical and Biological Engineering at Rensselaer Polytechnic Institute. His research efforts are focused on the modeling and control of biomedical and energy-related processes. He is the President of the American Automatic Control Council (AACC), the Programming Chair for the CAST Division of AIChE, and is a founding member of the editorial board of the Journal of Diabetes Science and Technology. He is an AIChE Fellow and was inducted into the Arkansas Academy of Chemical Engineers. Professor Bequette is the author of *Process Control: Modeling, Design and Simulation* (2003) and *Process Dynamics: Modeling, Analysis and Simulation* (1998), both published by Prentice Hall. His extracurricular activities include biking, skiing, pole-vaulting (competition in the Master's Division denotes age rather than skill level), and coaching little league baseball.
